

ICPC Pacific Northwest Regional Contest

Problem O

Even or Odd

Time limit: 1 second

Your friend has secretly picked N consecutive positive integers between 1 and 100, and wants you to guess if their sum is even or odd.

If the sum must be even, output 'Even'. If the sum must be odd, output 'Odd'. If the sum could be even or could be odd, output 'Either'.

Input

The input is a single integer N with $1 \leq N \leq 10$.

Output

Output a single word. The word should be 'Even', 'Odd', or 'Either', according to the rules given earlier.

Sample Input 1

1

Sample Output 1

Either

Sample Input 2

2

Sample Output 2

Odd
